

# **CLOUD BY DAY**

ADAM RUSSELL

**The world was so dark, a night without light  
Until You came around  
We were so blind, captives confined  
Until You gave us Your light  
You gave us Your light**

**It's Your presence  
That makes the difference  
It's Your presence  
That makes the difference**

**You're a cloud by day  
You're a fire in the night  
You're a way where there's no way  
Yeah, You're sight for the blind  
You've got healing for the hurting  
And freedom for the burdened ones**

**Lazarus was laid, dead in his grave  
Until You came around  
My heart was cold, it was still as a stone  
Until You made me alive  
You made me alive**

**When You come everything changes  
When You come everything changes  
When You come everything changes**

**CCLI#5575958**
