

# **FOLKS LIKE US**

ADAM RUSSELL

**We're not afraid to say that we're needy  
We're not ashamed to say that we're weak  
We cry out 'cause You are the remedy  
You're the remedy for our disease**

**And /'cause You are great  
But You are gracious  
You are power, but You are patient  
And You've got kindness in Your heart  
For folks like us**

**And You're a friend to the sinner  
You keep the losers, You keep the winners  
You call them sons, You call them daughters  
Folks like us**

**And we need You  
Like a baby needs its mother's love  
Yeah, we need You  
Like the morning needs the rising sun  
Yeah, we need You  
Like the future needs tomorrow to come  
Yeah, we need You, God, oh**

**We need You, God, we need You, God  
We need You to come  
And heal our broken hearts (3x)**

**We need You, yeah we need You  
Right here, right now**

**CCLI#5979633**
