Verse 1:

All that we're waiting for.
Jesus You're standing at the door
Don't have to fight it
Don't have to run no more
This is where life begins
We open the door and let You in
You are the morning
You let the sunlight in...

Chorus:

You're the air that we're needing
You're the fire that we're seeking
You're the life that we're chasing...
You're everything Jesus
You're the breath that we're breathing
You're the passion we're feeling
You're the dream that we're dreaming
You're everything Jesus

Refrain:

(Whoa) You're everything Jesus
(repeat)

Verse 2:

All that we've waited for
You're here to save and to restore
You are the victory
You've already won the war
(And) You're everything Jesus
All that we need and so much more

Bridge:

What are we waiting for
What are we waiting for

What are we waiting for
Jesus You're standing at the door

What are we waiting for
Not gonna fight it anymore...

All that we've waited for
Jesus You're standing at the door

Not gonna fight it
Not gonna fight it anymore....
