

You're Always With Us

Kim, Squyres, Corum, Bernhard, Anderson

Verse 1:

Here in our joy, here in our sorrow
There in our past, there in tomorrow
Here in our wine, here in our drinking
Here in our bread, here in our breaking

Chorus:

You're always with us, You're always with
us
You're always with us, You're always with
us

Verse 2:

Even in fear, even in fire
Even in faith, walking on water
Even in doubt, even denying
Even in life, even in dying

Bridge:

No power of hell can separate us
You're always with us
You're always with us
You're always with us
You're always with us

Verse 3:

Now we will sing with all that's within us
In all of our lives, You're always with us

Refrain:

Whoa, whoa
