

We Shine

Kat Regester & Dave Plumb

Standing in the calm or the chaos  
Forever holding out your light  
You are the guide, the road that leads us  
Navigates the way back to  
You light the way back to you

You shake off debris and dust  
Reveal your treasure in us  
You, the everlasting light  
Forever burning in us  
And we shine and we shine and we shine  
And we shine and we shine and we shine

Too long living in the shadows  
We are called to be your hands and feet  
You are the love, the light we follow  
Navigates us home back to you  
Navigates us home back to you

You shake off debris and dust  
Reveal your treasure in us  
You, the everlasting light  
Forever burning in us  
And we shine and we shine and we shine  
And we shine and we shine and we shine

Stand with me, shine a light  
Hands in the air we are burning bright
