

YOU DON'T HAVE TO LOSE HEART

Adam Russell, Casey Corum, Jack Mooring, Leslie Jordan

Hey now, you don't have to lose heart
Hey now, we are only at the start
Of what He's doing here, (He's here)

Let us put our trust in the One who carries us
So we can let go of every disappointment
Let us cling to love, to the hope ahead of us
So we can hold on to every single promise

Brother, when your troubles weigh you down
My sister, fix your eyes on higher ground
On the peace that's yet to come, to come

Let us rest here in the hands
Of the One who made all things
Let us rest here in the plans
Of the One who knows all things
