

# A Great Light

Ryan Delmore

Lost and alone in the darkest of nights  
Look to the east, yonder it shines  
All of us here have seen a great light  
Have seen a great light

Follow the star, 'til it rests in the sky  
Now He appears in front of our eyes  
All of us here have seen a great light  
Have seen a great light

Wonderful, Counselor, Mighty God, Prince of Peace  
Hope of all hopes and dream of all dreams  
A Child is born changing everything

Be not afraid of this beautiful sight  
God become flesh, this is the Christ!  
All of us here have seen a great light  
Have seen a great light

Come let us adore Him  
Bow our hearts before Him
