{Intro}

You hold the future and the future is fun

Fun, fun, fun fun, fun, fun

You hold the future and the future is fun

{Verse 1}

Bigger than anything I've dreamed

Better than anything I've seen

You are the God who brings light from the darkness

All the impossible's easy for You

You're the God of miracles

{Chorus 1}

We are marching to the beat of a different drum

We're breaking out, we're breaking out

Marching to the beat of a different drum

You hold the future and the future is fun

You hold the future and the future is fun

Fun, fun, fun

You hold the future and the future is fun

Fun, fun, fun

You hold the future and the future is fun

{Verse 2}

Bigger than anything I've dreamed

Better than anything I've seen

I'm coming alive in the glory and fire

Spirit wind blow come and take me up higher

This is the awakening

{Bridge}

Get ready, get set run

Here comes the future and the future is fun

Fun, fun, fun

The future is fun, fun, fun

The future is fun, fun, fun

The future is fun

{Chorus 2}

We are marching to the beat of a different drum

We're breaking out, we're breaking out

We're marching to the beat of a different drum

You hold the future and the future is fun
